An Associate Cloud Engineer deploys applications, monitors operations, and manages enterprise solutions. This individual is able to use Google Cloud Console and the command-line interface to perform common platform-based tasks to maintain one or more deployed solutions that leverage Google-managed or self-managed services on Google Cloud.

The Associate Cloud Engineer exam assesses your ability to:

- Set up a cloud solution environment
- Plan and configure a cloud solution
- Deploy and implement a cloud solution

- Ensure successful operation of a cloud solution
- Configure access and security
